Carl....No real information available on what the ATF/State Fire Marshal are going to say tomorrow but we have information to share about tomorrow. From Kelly cook with TCEQ we learned that there is a Law enforcement Briefing at 1 pm tomorrow, a briefing for the Families of the victims at 2 or 3 pm and then the press briefing at 4 pm. Kelley indicated that the TCEQ Chairman was being briefed this afternoon. Kelley is attending the briefings tomorrow. We asked Kelly to call us after the law enforcement briefing. Ivan Vikin is also going to the briefings tomorrow and has some advance information about ATF's conclusions but is not able to share them with us. OSC Mark Hayes has spoken with the CID agents and they are going to update him after the briefings.

Sure....I wouldn't expect them to consult with us beforehand ...we aren't in charge.
